the nuclear field (2016-2017)

## BACKGROUND OF THE PROJECT

The primary motivation of the ENEN+ project is to substantially contribute to the revival of the interest of young generations in careers in the nuclear sector. This is to be achieved by pursuing the following main objectives:

- Attract new talents to careers in nuclear.
- Develop the attracted talents beyond academic curricula.
- Increase the retention of attracted talents in nuclear careers.
- Involve the nuclear stakeholders within the EU and beyond.
- Sustain the revived interest for nuclear careers.

The ENEN+ consortium will focus on the learners and careers in the following nuclear disciplines:

- Nuclear reactor engineering and safety
- Waste management and geological disposal
- Radiation protection
- Medical applications

## TASKS AND TOPICS

The task of the participants is to compose a **3-minute video** on one or more of the four nuclear disciplines. Suggestions for topics include, but are not limited to:

- Jobs in nuclear
- Create a story about nuclear
- History of nuclear science and technology
- Future of nuclear technology
- Nuclear in daily life
- Radiation for health

## REGISTRATION FORM AND VIDEO SUBMISSION

A registration form should be submitted of the project in English, provided as a PDF file (template available on the ENEN website:
